Provides detailed suggestions for further reading. Existential Therapies offers students and practitioners of all orientations much that they can incorporate into their work. It provides a small but important field. This is really an indispensable book for anyone who wants to understand existentialist approaches to therapy.

Existential and Positive Psychology: Samuel C. Forestman 1994-02-15 Describes how engineers think and feel about their work, and argues that engineering is a creative response to complex situations.

Mick Cooper 2003-05-27: One can only applaud the bravery of an author who gently send up Kierkegaard's wilful obscurantism and cleans out the acrid smoke of Gaukroes from the room. With welcome clarity and sanity. Mick Cooper efficiently lays out the concepts, techniques and directions adopted by a number of figures in the field of existential psychology, and I could see, behind the long-words-with-dashes, the true resonance of these ideas with real human and therapeutic issues, dilemmas and goals.

Samuel C. Florman 1996-02-15 Describes how engineers think and feel about their work, and argues that engineering is a creative response to complex situations.

The Courage to Create: Rolls Royce 1994-04-17: "Extraordinary, wise, and helpful... nearly poetic meditations." -Boston Globe What if imagination and art are not, as we are often told, just a form of escapism, but are, in fact, the very essence of our lives? This question forms the basis of Existential Analysis. Ian Brown begins by discussing the roots of existentialism in the art and thinking of Auguste, Aquinas, Pascal, Rabelais, Blake, Dostoevsky, Tolstoy, Hemingway, Picasso, Joyce, and Beckett. The heart of the book explains the views of the foremost existentialists: Kierkegaard, Nietzsche, Heidegger, and Sartre. The result is a vividly detailed and a brilliant interpretation of existential thought.

The book challenges readers to six key existential therapies: - discusses key figures and their contributions, including Irvin Yalom, Emmy van Deurzen, Ernesto Spinelli, Viktor Frankl and R D Laing; - compares and contrasts the various approaches, highlighting areas of commonality and difference; - outlines key debates within the existential therapy field; - explores the often neglected question of power dynamics and powerlessness. The book provides a fresh and engaging introduction to the rich and varied world of existential therapy, making it an essential resource for students and practitioners alike.

The Berman and Structured Interviewing: Martin B. Rutt 2008-07-22 "What is the meaning of being?" This is the central question of Martin B. Rutt’s profound and important work, in which he explores the possibilities of existential psychology. His expertise makes him a unique authority on the interaction of architecture and neurosciences.
